

## From the CEO's Desk

Dear Colleagues,

***It always seems impossible until it's done. - Nelson Mandela***

We entered the 10th year of Safeducate's operations with an ambitious goal of building an order book of 100 crores. Safeducate was launched 10 years ago with a vision to transform the skill landscape of the SCM and Logistics sector in India through our innovative skilling solutions for the corporates and individuals. The same vision and passion drove us to achieve the otherwise impossible achievement for a small organization like ours. Today, Safeducate is a brand, recognized for its innovative training solutions and also for the ability to create sustainable value for the learners by focusing on quality.

The year gone will be remembered for a number of reasons. These include; awards bestowed upon us; new corporate connects made to push industry interaction and talent supply; new skill projects started in various states; skill projects successfully completed; new learning centres opened to facilitate access for desirable students, who wants to get industry training and build their career in logistics; new institutional tie-ups to bolster academia connect and above all our humble efforts to change someone's life positively. By rolling out new industry linked skill development courses under various sectors, we were able to make remarkable impact on considerable number of young lives in India's urban and rural areas. This was made possible because of the sincere support of each one of you, who are the building blocks of this young organization. As we cruise through the 10th year of our operations, we look forward to enter the next phase of our growth.

This financial year, we look forward to leverage our e-learning website [www.safeducateonline.com](http://www.safeducateonline.com). This portal facilitates the hybrid model of learning, wherein the learners will have the option to access the courses in digital format, interact with Subject Matter Experts and opt for a practical training in a nearby learning centre to get accustomed to industry best practices under the guidance of a mentor. This year, we have planned to launch short-term certification programs in association with IIM. We will be launching the first program as early as May. As such, respective teams are working behind the scene to make this venture a great success.

Wish you a great and productive financial year 2017-18 ahead.

Happy Learning!

**Divya Jain**  
Founder & CEO

## SPEAKING SUCCESS

Name of the Trainee: **Jitendra**  
Learning Centre: **Satnali, Mahendragarh**  
Project: **Documentation Assistant, HSDM**  
Placed Company: **Rivigo logistics, Jamalpur (Pataudi)**

I am Jitendra, 27 years old. After Graduation, I tried a lot for Govt Job but was able to get one. Finally planned to apply for a Private Job, but was bit confused and felt helpless in finding the suitable job. In the mean time, I met Safeducate field team, they made me understand about skill training and the careers in the logistics. At the very moment I filled the enrollment form and got admission in the first batch in Satnali centre. Within 15 days of completion of my training, I got placed in Rivigo Logistics on a monthly salary of Rs 15,200. Now I am very confident about my career and further.

"Failure is only for short period but serves as a stepping stone to success"

This is the dictum believed by our student Kanai Das, who completed the short-term skill development course successfully and got placed in Safexpress in his first interview itself. He set an example for all the individuals who are expecting something from this project. Prior to joining this project he set his goals and worked accordingly. He sincerely attended his classes and received the desired result. Kanai is grateful to Safeducate for providing him the stepping stone for his success.

Name of the Trainee: **Kanai Das**  
Learning Centre: **Kamrup (Assam)**  
Course: **Warehouse Operator, DDU-GKY**  
Placed company: **Safexpress, Assam**

Name of the Trainee: **Minati Sahu**  
Training Program: **Accelerate Training**  
Location: **Safexperience, Delhi**

This training was very good for me because we were able to improve our quality in call and learned more how to handle customer with better product knowledge.

Safeducate has developed a repertoire of professional, behavioral and enhanced my technical skills, which helped me to face the future challenges in my career. The classroom experience was wonderful; we easily interacted with our trainers which made me eager enough to learn more things through their experiences.

Name of the Trainee: **Amol Solankar**  
Learning Centre: **Safeducate Learning Centre, Nagpur**  
Course: **Certificate in Logistics Excellence**
